Update on Wellhead Treatment Progress, Potential Issues and Water Quality Update
Report Date: February 3, 2021

| Milestone | Date | On Schedule (Y/N) <br> Or Completed | Notes and Comments |
| :--- | :--- | :--- | :--- |
| Complete treatment piloting | $11 / 20 / 2019$ | Completed | Final report submitted on $1 / 20 / 19$ with engineering report, <br> approved by NYSDOH on 9/9/2020 |
| Completed engineering <br> report/submit for regulatory review | $1 / 20 / 2020$ | Completed | Submitted to NYSDOH, Approved by NYSDOH on 9/9/20 |
| Complete project design/submit for <br> regulatory review | $3 / 6 / 2020$ | Completed | Submitted to NYSDOH, Approved by NYSDOH on 9/9/20 |
| Commence project <br> Construction | $4 / 1 / 2020$ | On Schedule | Contract signing date |
| $50 \%$ project completion | $6 / 2 / 2020$ | On Schedule | AOP performance testing schedule for February 2021 |
| $100 \%$ project completion | Spring 2021 | On Schedule |  |

## Potential issues / concerns / delays:

Plant 6 is located at the corner of Hickory Rd. and Denton Ave. The Project is on schedule for completion in Spring 2021. It should be noted that the 1, 4 Dioxane levels at well 6 are below the maximum contaminant level. Additionally, existing GAC treatment at the plant removes PFOS/PFOA to levels below the maximum contaminant level.

Update on Wellhead Treatment Progress, Potential Issues and Water Quality Update

Report Date: February 3, 2021
Facility: Plant 7/10
Prepared by: Michael Levy, Superintendent

| Milestone | Date | On Schedule (Y/N) <br> Or Completed | Notes and Comments |
| :--- | :--- | :--- | :--- |
| Complete treatment piloting | $\mathrm{N} / \mathrm{A}$ |  |  |
| Completed engineering <br> report/submit for regulatory review | $11 / 19 / 2019$ | Completed | Submitted to NYSDOH, Approved by NYSDOH on 6/10/2020 |
| Complete project design/submit for <br> regulatory review | $01 / 15 / 2020$ | Completed | Submitted to NYSDOH, Approved by NYSDOH on 6/10/2020 <br> (including GAC for PFAS treatment and provisions for future AOP <br> treatment) |
| Commence project <br> Construction | $5 / 22 / 2020$ | On Schedule | Contract signing date |
| $50 \%$ project completion | $6 / 22 / 2020$ | On Schedule |  |
| Other | $10 / 16 / 2020$ |  | NCDOH / NYSDOH Approval of completed works to run GAC <br> treatment to system |
| $100 \%$ project completion | Spring 2021 | On Schedule |  |

## Potential issues / concerns /delays:

Plant 7/10 is located on Shelter Rock Road in Roslyn. Treatment for PFOA is installed and operational. As of 10/16/2020 the plant is producing system water with levels of PFOS and PFOA below detectable limits. Winter weather has delayed the completion of the project,, but treatment is in place and operational.

# Garden City Park Water District <br> PWS ID No. NY2902825 <br> Quarterly Deferral Update 

Update on Wellhead Treatment Progress, Potential Issues and Water Quality Update

| Report Date: February 3, 2021 | Facility: Plant 8 |
| :--- | :--- |
| Prepared by: Michael Levy, Superintendent |  |

| Milestone | Date | On Schedule (Y/N) <br> Or Completed | Notes and Comments |
| :--- | :--- | :--- | :--- |
| Complete treatment piloting | $7 / 18 / 2018$ |  | Calgon AOP Pilot - Calgon AOP reactor to be removed and replaced <br> with UV/H2O2 AOP treatment |
| Completed engineering <br> report/submit for regulatory review | $6 / 1 / 2021$ | Tentative | Engineering report for new UV/H202 AOP treatment |
| Complete project design/submit for <br> regulatory review | $8 / 1 / 2021$ | Tentative | Project design for UV/H202 |
| Commence project <br> Construction | $10 / 1 / 2021$ | Tentative |  |
| $50 \%$ project completion | $1 / 1 / 2022$ | Tentative |  |
| $100 \%$ project completion |  |  |  |

## Potential issues / concerns /delays:

Well 8 is located on Old Courthouse Rd. in Manhasset Hills. An existing Calgon AOP system will be removed and new Trojan UV/H202 will be installed. Production from this well has been suspended and will only be used in an emergency. It is the Districts intention to keep the well offline until treatment for both 1,4 Dioxane and PFAS is installed

Update on Wellhead Treatment Progress, Potential Issues and Water Quality Update

Report Date: February 3, 2021

| Milestone | Date | On Schedule (Y/N) <br> Or Completed | Notes and Comments |
| :--- | :--- | :--- | :--- |
| Complete treatment piloting | $11 / 26 / 2019$ | Completed | Field work completed 11/26/2019 |
| Completed engineering <br> report/submit for regulatory review | $1 / 22 / 2020$ | Completed | Submitted to NYSDOH, Approved by NYSDOH on 10/30/2020 |
| Complete project design/submit for <br> regulatory review | $3 / 13 / 2020$ | Completed | Submitted to NYSDOH, Approved by NYSDOH on 10/30/2020 |
| Commence project <br> Construction | $3 / 10 / 2020$ | Complete | Contract signing date |
| $50 \%$ project completion | $4 / 29 / 2020$ | Yes |  |
| Other | $12 / 30 / 2020$ | Complete | Authorization to operate well to system received from NYSDOH |
| $100 \%$ project completion | Summer <br> 2021 |  |  |

## Potential issues / concerns /delays:

Plant 9 located on County Courthouse Road has been upgraded with on AOP reactor and GAC filters to remove 1 , 4 Dioxane and PFOA contaminants. Performance testing of these systems has been completed and authorization to operate has been granted. Winter weather has delayed the start of operations as the building enclosure is not yet complete. The well will remain off until the building is secure or the weather temperatures permit operation

## Update on Wellhead Treatment Progress, Potential Issues and Water Quality Update

Report Date: February 3, 2021
Facility: Plant 11
Prepared by: Michael Levy, Superintendent

| Milestone | Date | On Schedule (Y/N) <br> Or Completed | Notes and Comments |
| :--- | :--- | :--- | :--- |
| Complete treatment piloting | $\mathrm{N} / \mathrm{A}$ |  |  |
| Completed engineering <br> report/submit for regulatory review | $\mathrm{N} / \mathrm{A}$ |  |  |
| Complete project design/submit for <br> regulatory review | $10 / 27 / 2020$ | Complete | Laboratory sampling following carbon replacement to confirm PFOA <br> removal |
| Commence project <br> Construction/Implementation | $11 / 13 / 2020$ | Complete | NCHD Approval to Operate |
| $50 \%$ project completion |  |  |  |
| Other |  |  | Existing GAC approved by NCHD for PFOA removal |

## Potential issues / concerns /delays:

Well \#11 is located on Links Drive in North Hills. Existing GAC filters installed for VOC removal have been approved for PFOA removal. Required sampling for PFOA will assure the filter bed is replaced when no longer removing efficiently.

No wellhead }\end{array} \\ \text { treatment for 1,4 Dioxane is } \\ \text { required }\end{array}\right]$

## Notes:

- Sample results are post treatment levels
- BDL - below detectable limits
- PFOA - Perfluorooctanoic acid
- PFOS - Perflurooctanesulfonic acid
- MCL - Maximum Contamination Leve
- ppt - part per trillion
- ppb - part per billion
